Thanks Mark! So I plan to make the edit below to the Desk Statement to reflect that info. Does this look good to you?
Thanks!

One site was a DW plant (Hoffer WTP raw) but was not FINISHED drinking water. 8 sites in all.

I read the desk statement and have no new commensts.

Tim, Mark and Sania,

Please give the attached EPA Desk Statement a look-over for accuracy. Megan and I have decided not to include information about the exceedance in EPA's public Desk Statement, since it is NC DEQ's responsibility to publically

communicate results and next steps. But we will let the communications leads in the various affected EPA offices know this info (OW, OCSP, OPA, Region 4, etc.).

Also, I have a question about an excerpt from the EPA Desk Statement. I've pasted it below. See the highlighted section.
